

How To Recycle Release Liner ...

○ DEFINE TYPE & VOLUME of liner you have:

- Type of Liner?
- How it is being collected?
- Volume, Width and Total Footage.
- If possible weigh a roll and then figure out how many rolls you have per month.

○ PACKAGING methods:

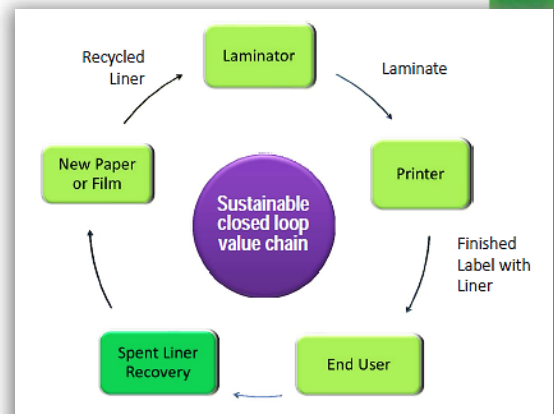

- Paper: Over 5" width rolls should be wound up on a core and stacked neatly on skids
- Paper: Under 5" or hard to rewind rolls should be collected in thick walled gaylord boxes without cores.
- Film: Collect in thick walled gaylord boxes, ideally without core, wound onto itself.

○ SEGREGATION:

- Reclaimed liner must be contaminant free from other materials/substrates.
- Less than 2% labels left on rolls.
- Minimal trash in boxes.

○ COLLECTION:

- Contact a company to work with for collection...
 - PET liners – Mitsubishi Polyester Film, Inc. – Vincent Decabooter – 864-879-5515, or Reprocess@m-petfilm.com
 - Paper and film liners – Channeled Resources Group – Francesca Pellegrino – 312-929-1302 or fpellegrino@channeledresources.com
 - Paper and film liners – Recycle America – 631-756-1060
 - Film liners – National Recycling Network – 954-680-8802
 - Film liners – Custom Polymers – 281-582-0700
 - Film liners in the south east – Commercial Plastics – 813-248-4212
 - Paper liner in Canada – Hanna Paper - 905-475-9844
 - Paper liner midwest – Paper Recovery - 815-636-2329
 - Paper and film liner in California – Allen Company – 626-893-4726
